RE: Compliance as a Self Service Fuel Provider

Dear Mr. Fournier;

Reviewing your lease agreement for Site #199; the lease agreement states that use of the leased space "shall be limited to establishing a credit card, self-service aircraft fueling system." This lease does not allow for the refueling of aircraft by truck with either jet fuel or 100 LL. Pogo Pumps personnel have been observed doing both, which is not allowable under this lease, nor any other lease granted to Pogo Pumps or Viper Air. **You are hereby directed to immediately cease dispensing any form of fuel by truck.** You are also directed to remove all references to jet fuel from your signs until such time as you have the ability to dispense jet fuel via a "credit card, self-service aircraft fueling system."

You are hereby notified that you are in default of your lease for Site #199 as referenced above. If you do not cure this default within 30 days, this lease will be terminated pursuant to § 10 of the lease agreement.

Sincerely,
BOARD OF RAVALLI COUTY COMISSIONERS

Greg Chilcott, Chairman

Alan Thompson, Member

Howard W. Lyons, Member

CC: Page Gough, Airport Mgr
